

MaxiCut 5-60

Hose cutting machine

MaxiCut 5-60

Hose Cutting machine

MaxiCut 5-60 is a high performance and very safe pneumatically operated hose cutting machine. It has a 5 kW motor, a 400 mm cutting blade and is suitable from 3/16" up to 2" on 4-spiralled hoses. This model has an "open throat" hatch for inserting the hose from the front. The machine is also equipped with a pre-selection for 3 different cutting speeds to avoid overheating of the cutting blade and variable cutting stroke.

DIMENSIONS

Length/Depth/Height 700x600x1300 mm
 Weight 140 kg

DESIGNATION:

MaxiCut 5-60 400V 3-phase 9009-00-00

PART NUMBER:

SPARE PARTS:

Cutting blade HSM 400x4x50 Smooth 9009-01-04
 Cutting blade HSM 400x4x50 Toothed 9009-01-05

PART NUMBER:

TECHNICAL DATA

Hose dimension 1-2-4-layers 3/16 - 2"
 Max outside hose diameter 80 mm
 Motor 5,5 kW
 Voltage 230/400 V/16 A/50 Hz
 Velocity 2850 rpm
 Diameter (blade) external 400 mm
 Diameter (blade) internal 50 mm
 Air pressure 6,0 bar
 Counter 0 - 9999 pcs
 Smoke evacuation system 100 mm
 Colour Light grey/Dark Grey
